MBACASE

INTERVIEW
LOGIC

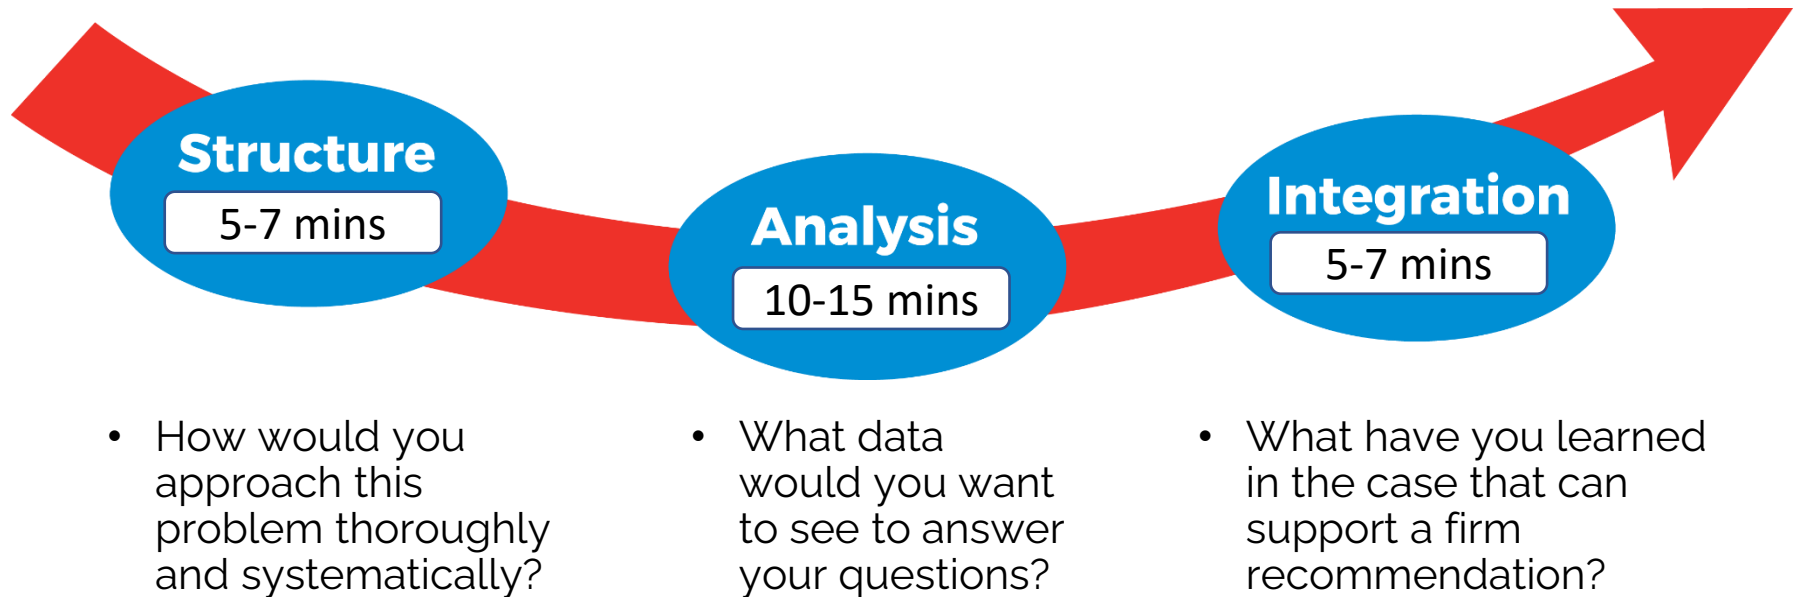

What do interviewers look for?

CSAI Skills!

What's a case interview?

Question: Should our fashion retailer open pop-up stores?

You real work will be a case

Question: How would you handle the private label marshmallow problem?

- How would you approach this problem thoroughly and systematically?

- What data would you want to see to answer your questions?

- What have you learned in the case that can support a firm recommendation?

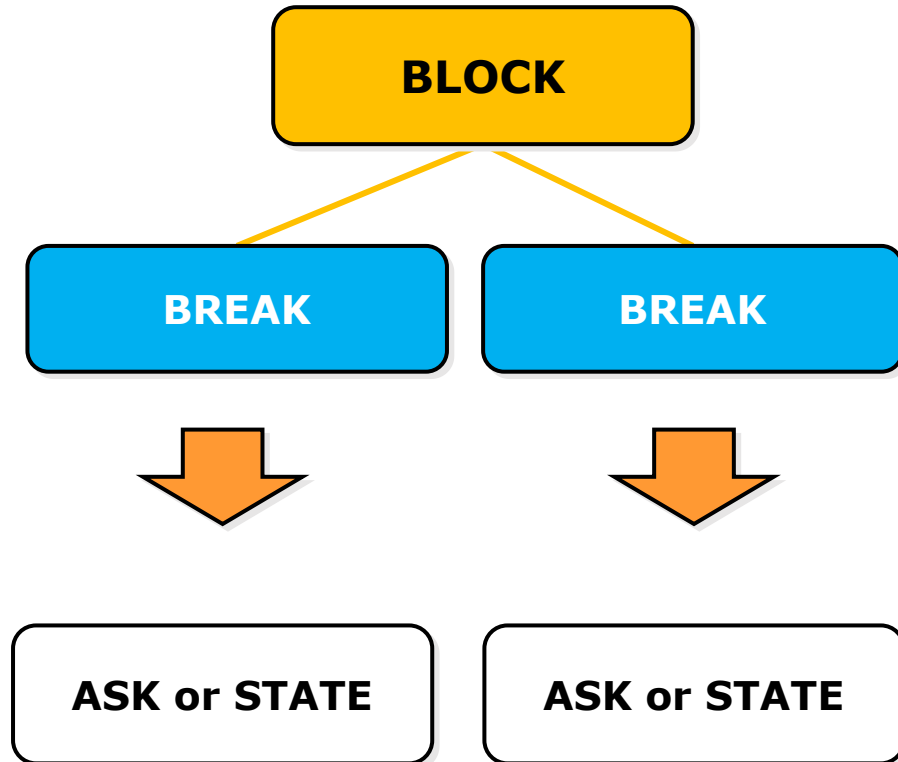

Interviewers (& managers) want to see breadth and depth of thinking!

Block, Break & Ask

Use this technique to show breadth of thinking **AND** the ability to find relevant data

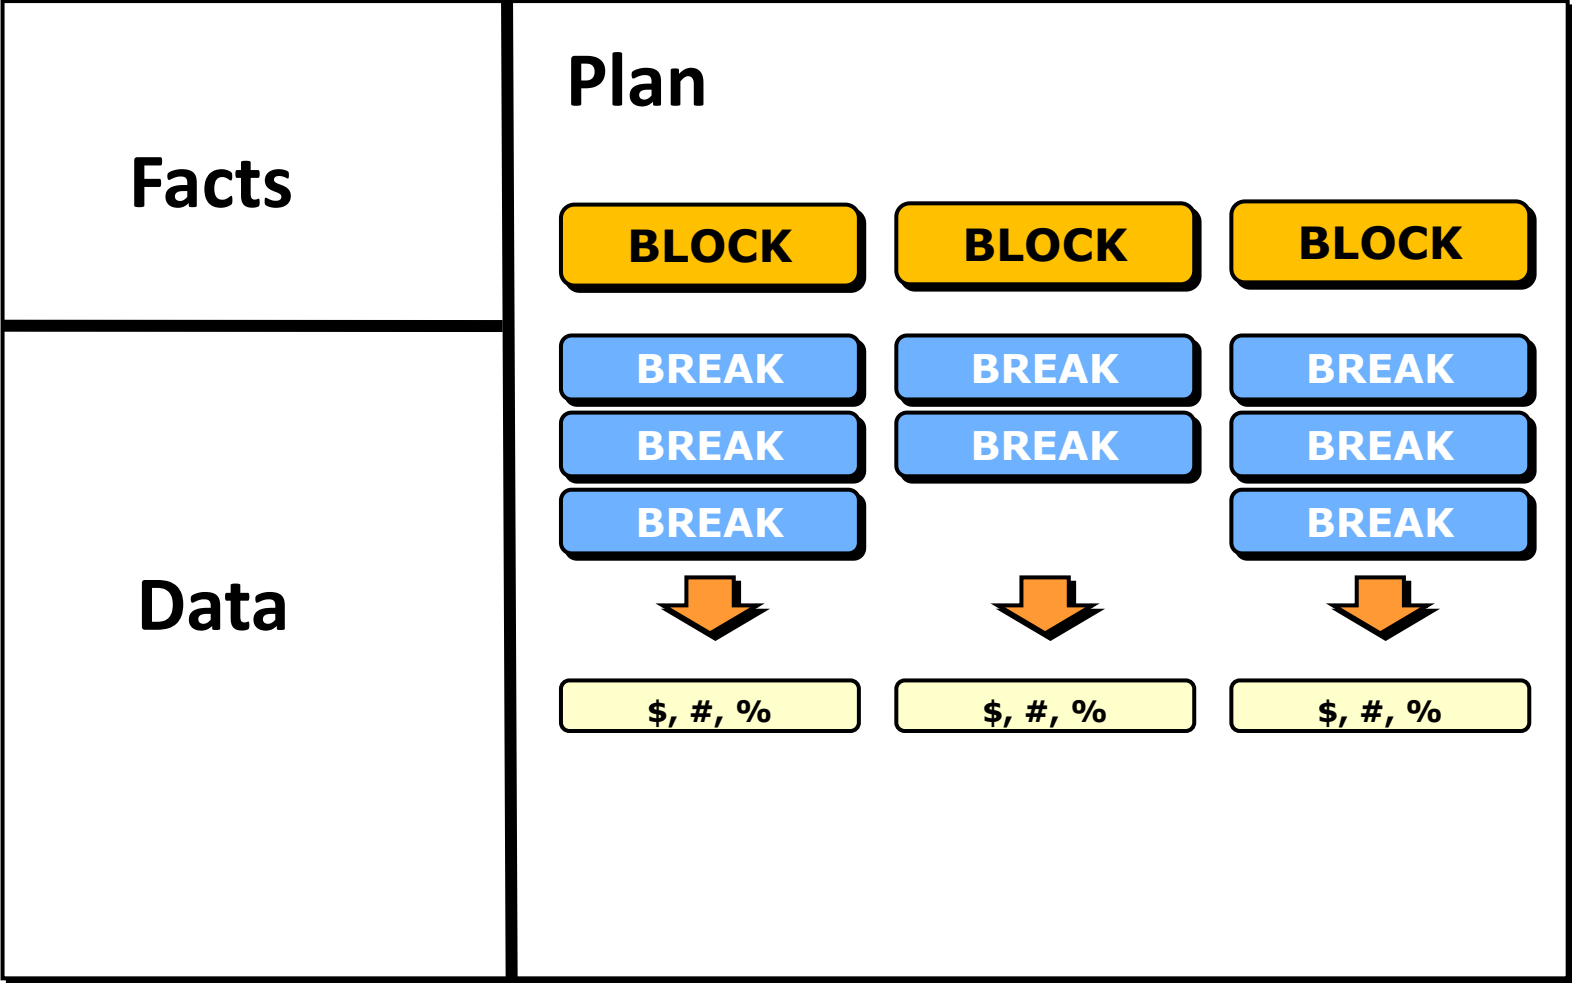

Gather and group your ideas. Do your categories make sense?

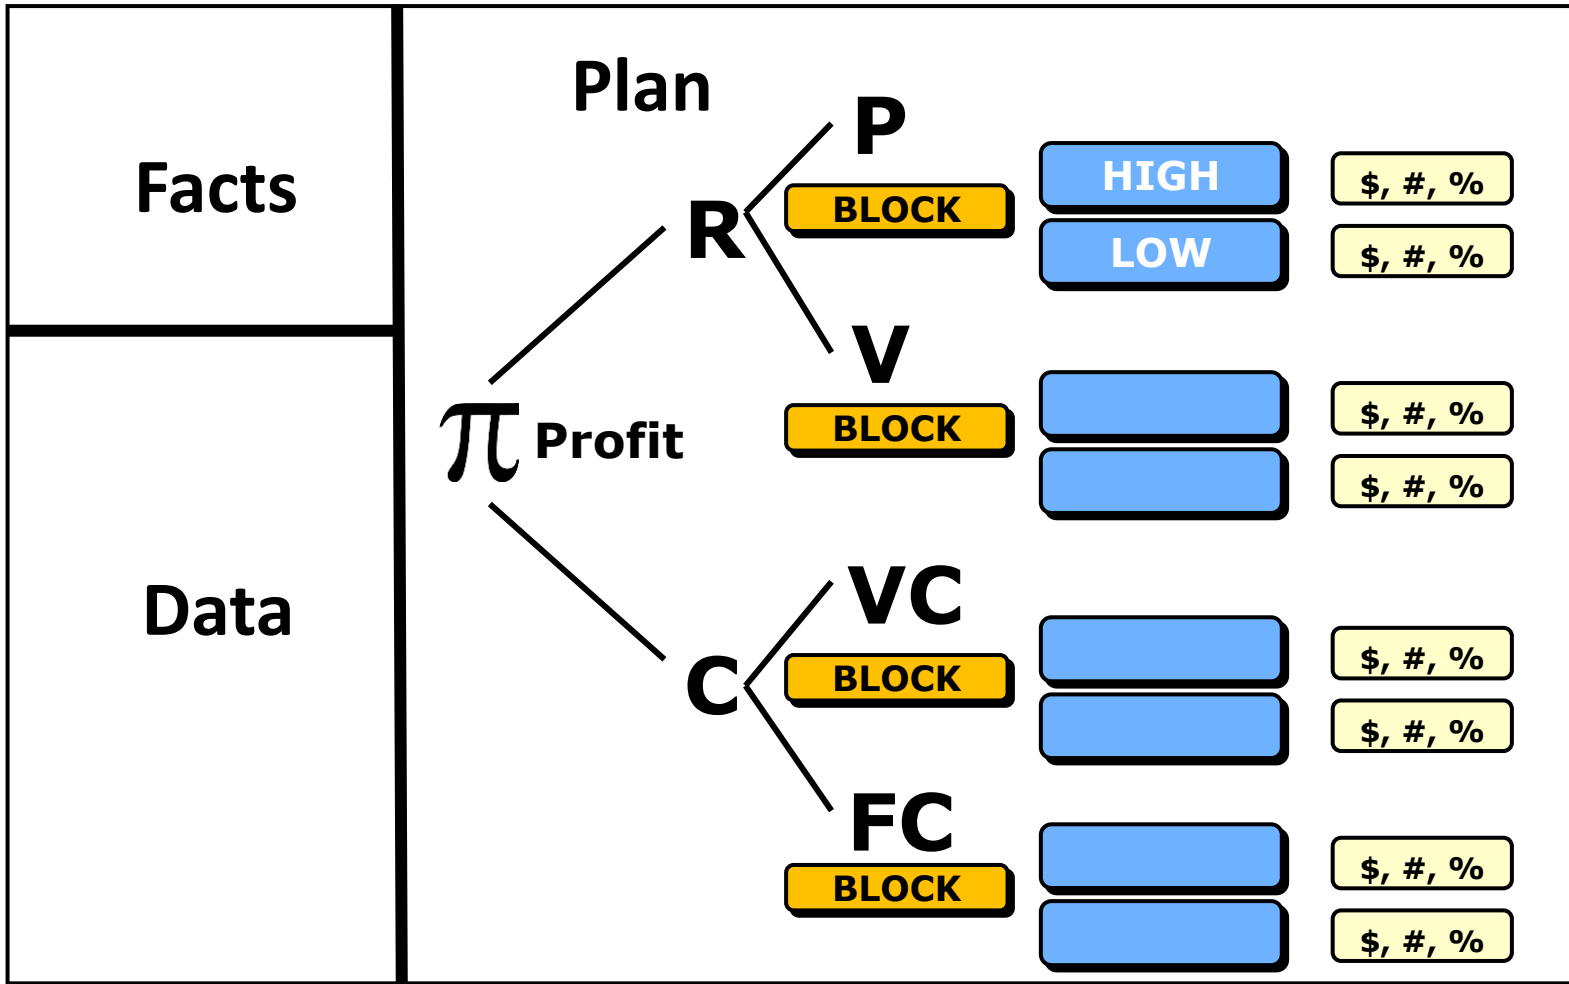

Be case specific to address what matters for THIS case. This shows you are thinking!

Mention the specific \$, # and % that you need. Be ready to explain ALL of your thinking before the interviewer gives you data.

Use your plan to connect and explain. Write or talk it through.

You may choose to show it horizontally (profit tree example)

Our client is considering opening a bike shop on campus.

Get your brain moving

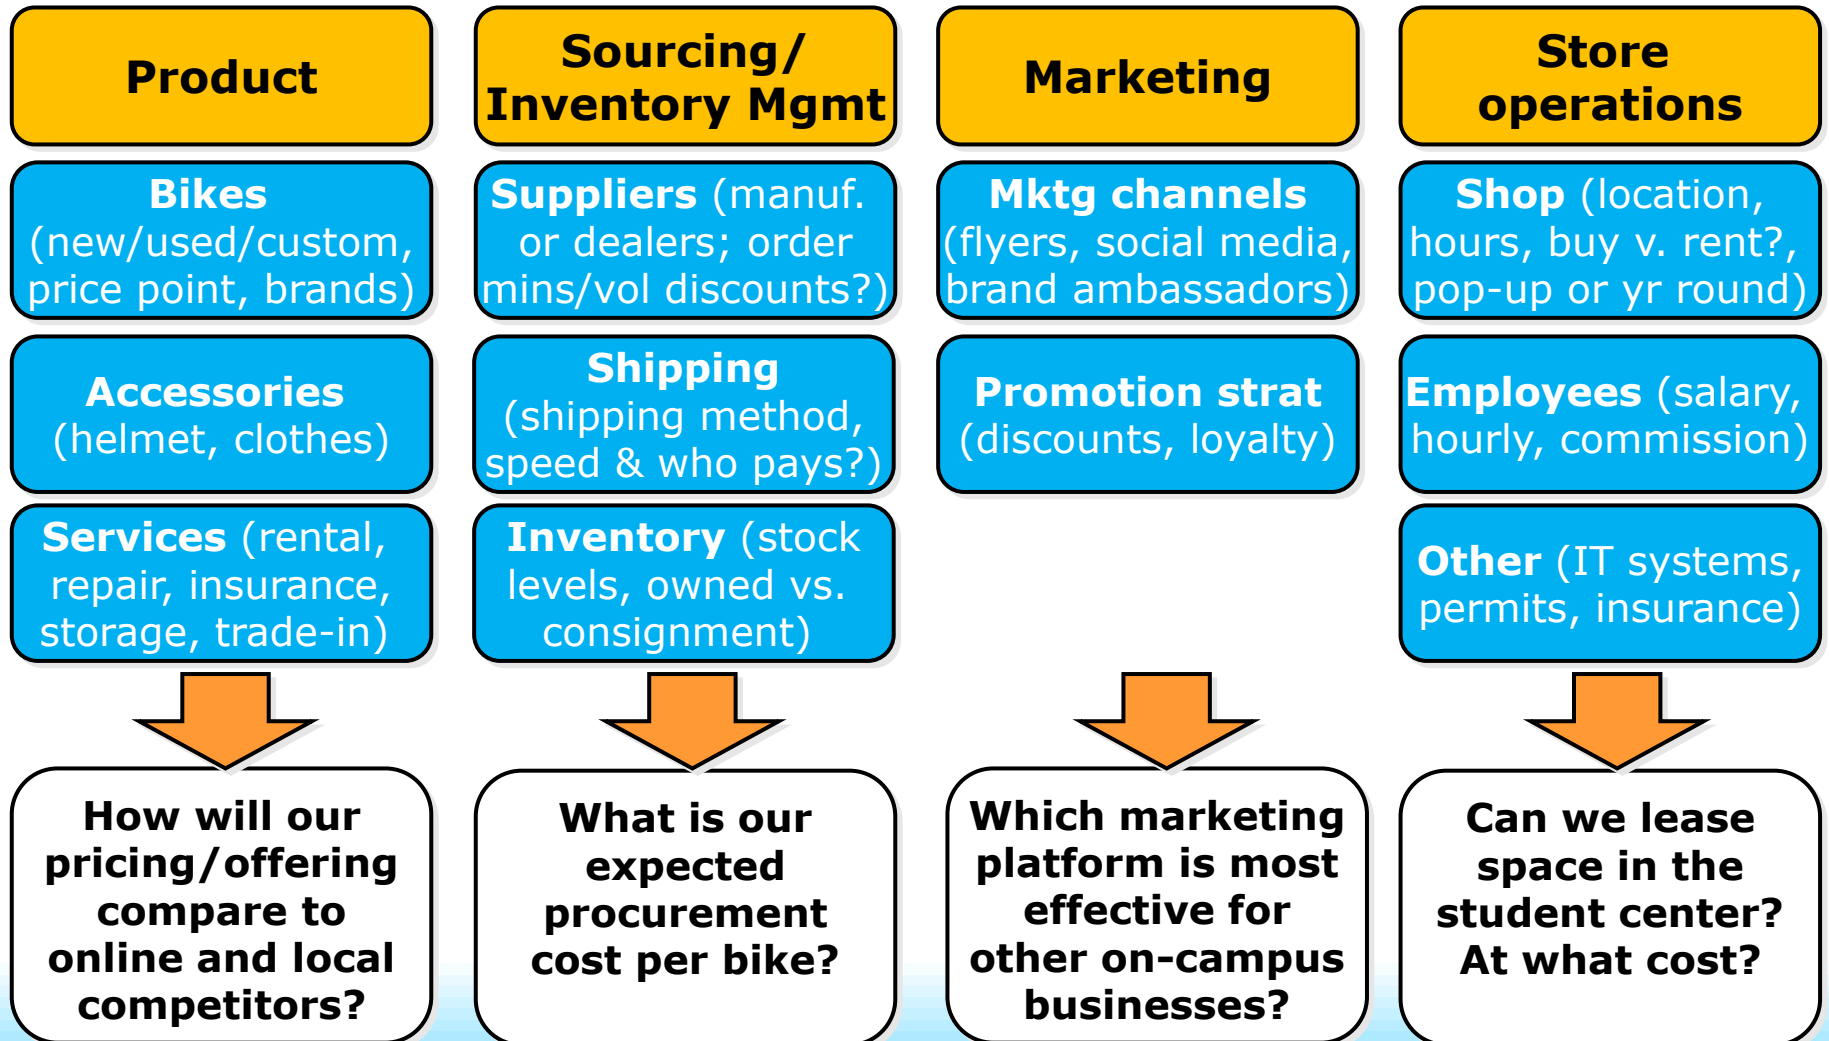

- What do they need to consider?
- What data would help create a robust plan

Make Your Structure

- Group the ideas from above and make your blocks
- Then make your case specific breaks
- Think through what data would be a priority

Bike Shop – Sample Structure

Before opening this bike shop, I would consider...

There isn't just one structure that will work per case

Our client wants to open a bike shop on campus.

Alternate structure #1

Alternate structure #2

Alternate structure #3

You'll start off robotic, but push for true advisory

Ask-Bot

List-Bot

**Hypothe-
Bot**

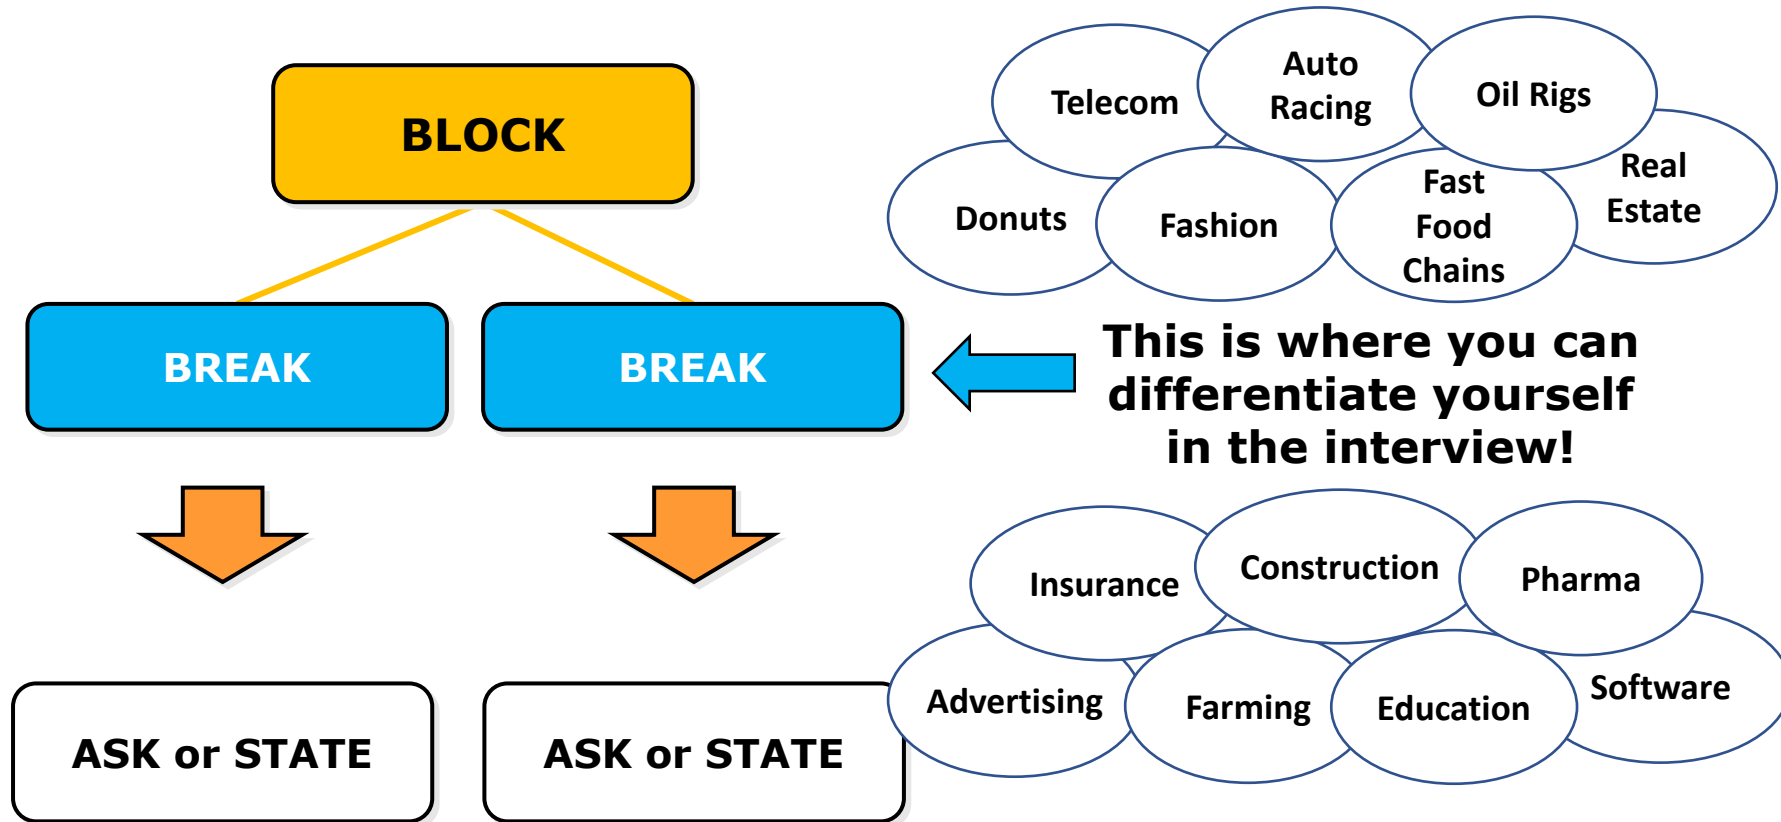

**Business
Advisor**

Show thinking with your breaks

Be case specific and hypothesis driven

Block, Break & Ask Tips

Remember these as you practice

BLOCK

- **Actively think** - Don't just recite something you memorized. How would you break up the work if this was an actual project?
- Practice structuring the same case multiple ways.

BREAK

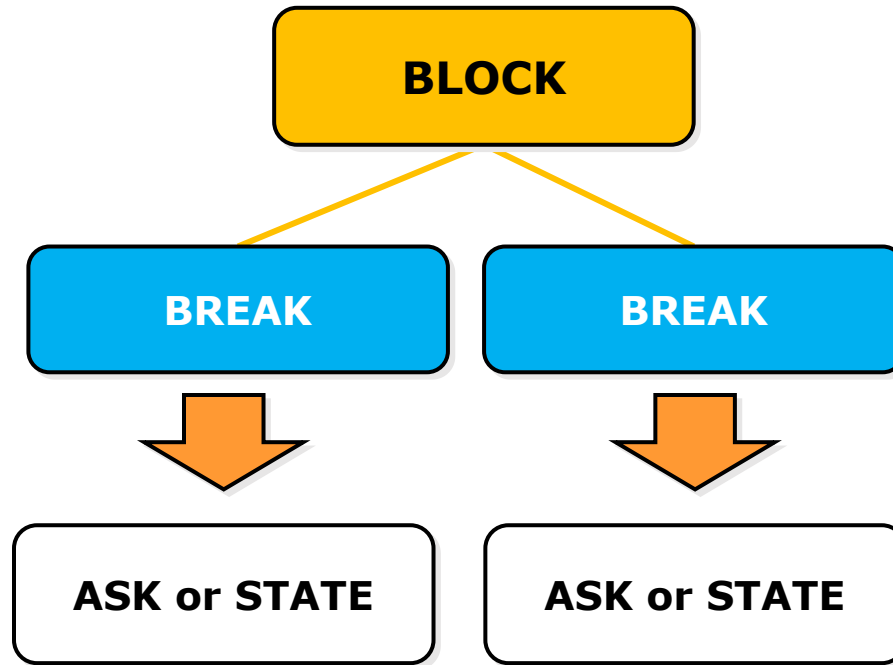

- **Self-assess** - Could I say exactly the same thing if we were talking about a completely different industry or product? If yes, you have NOT been case specific enough.
- Have your practice partners ask: "*What else?*"

ASK or STATE

- **Practice previewing** - Mention key data you'll want to analyze as you share your plan. Don't ask for the data until you've finished sharing your plan.
- After sharing your plan, dive into the data pool by proposing where to start and asking a question.

Prioritize your data

You can't ask for everything

**“If I got the data,
what decision could I make?”**

Specific questions help you anticipate what data is necessary.

Competitors

What percent of bike sales in the market come from independent stores? Big box?

Market share of each dedicated bike store?

Average time they have been in business?

Financial Goals

Which bikes offer us the highest dollar margin?
Which equipment?

What is **the typical ROI of an independent bike store?**

How do the 6 month and 12 month profit goals vary?

Supply & Distribution

What percent will be large brands vs. independent brands?

What is the **typical margin** we can expect with each source?

Typical big brand equipment terms and is unsold stock returnable?

Store Operations

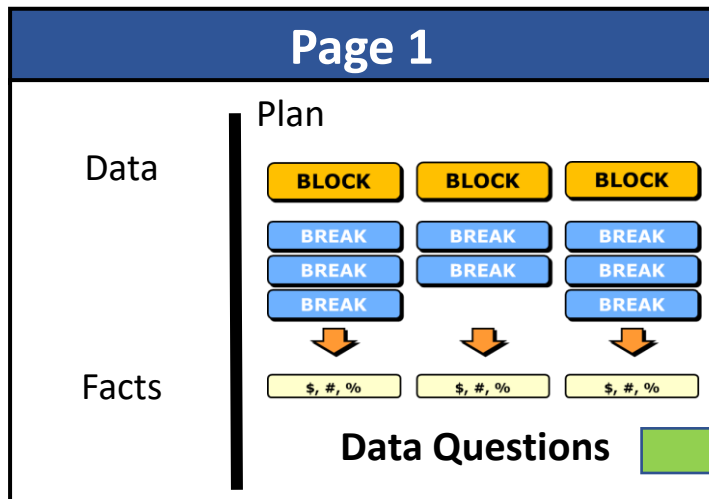

How would you **rate the foot traffic** for our section of town?

Do nearby businesses (e.g. restaurants, offices) draw potential customers?

How many customers come in per day? Percent that buy?

Data Anticipation

Thinking ahead accelerates your analysis.

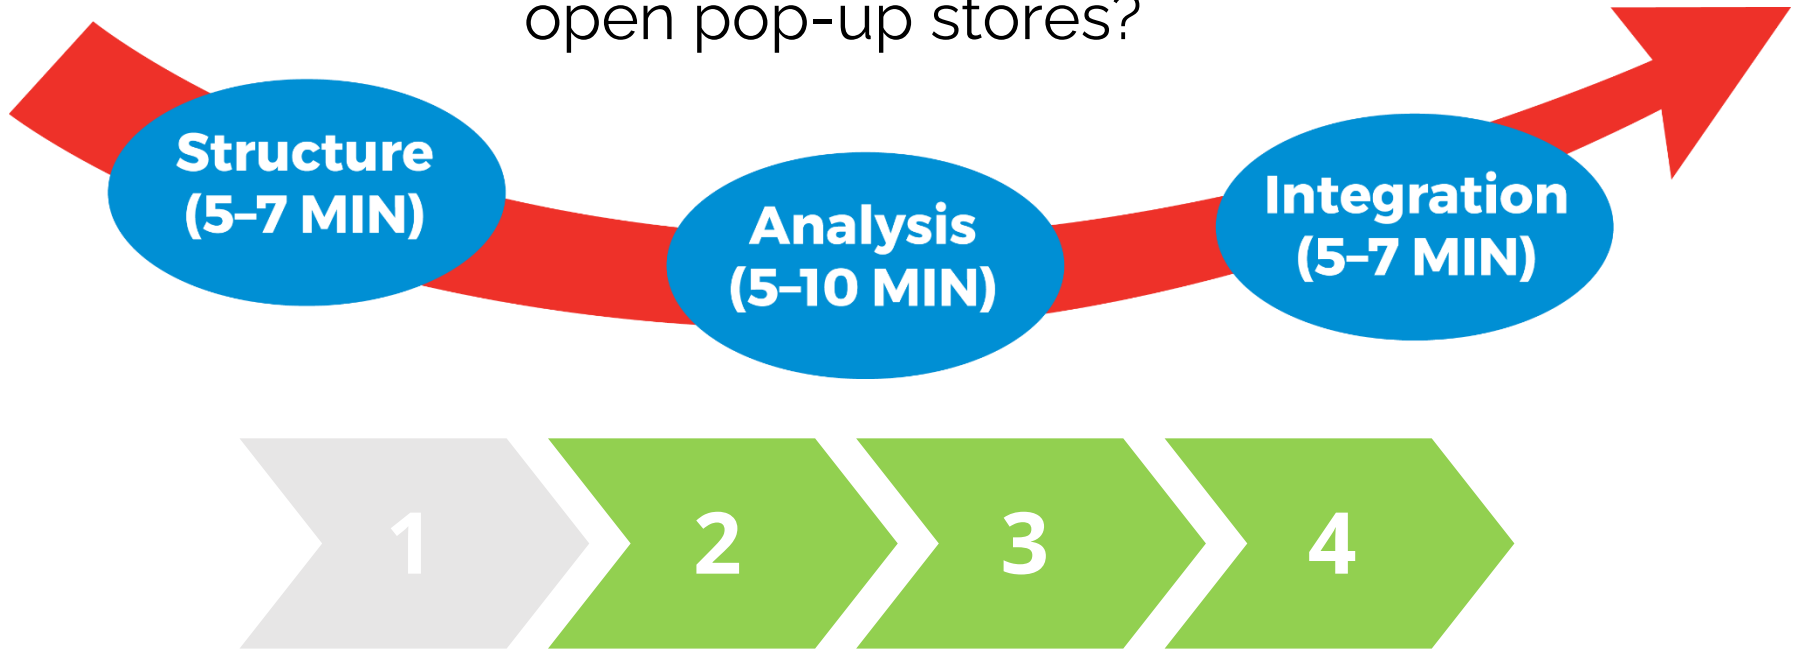

Pages 2-3

	Comp A	Comp B	Comp C
Rev			
Costs			
Profit			
Per Unit			

The diagram for Pages 2-3 is enclosed in a box with a blue header. On the left is a table with four columns: an empty header cell, 'Comp A', 'Comp B', and 'Comp C'. The rows are labeled 'Rev', 'Costs', 'Profit', and 'Per Unit'. To the right of the table is a 2x2 grid of orange squares.

Here are three more analytical skills that will differentiate you.

Question: Should our fashion retailer open pop-up stores?

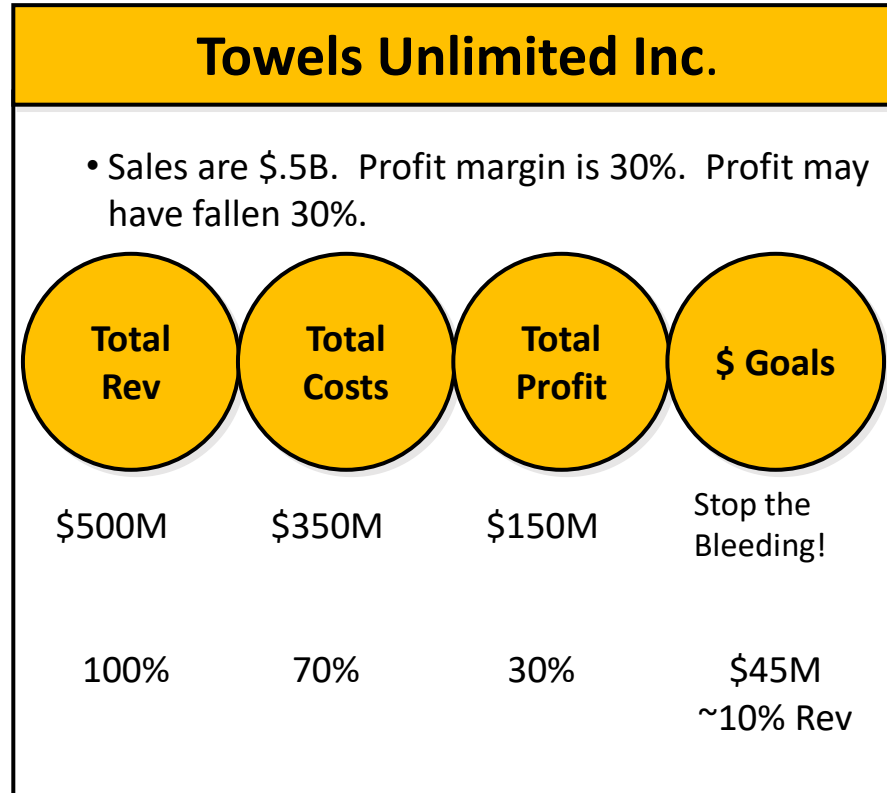

2

Get comfortable estimating and manipulating numbers.

Billions
Millions
& Thousands

Dollars &
Percentages

3

Become a data story-teller.

T-shirt production. What story do you see?

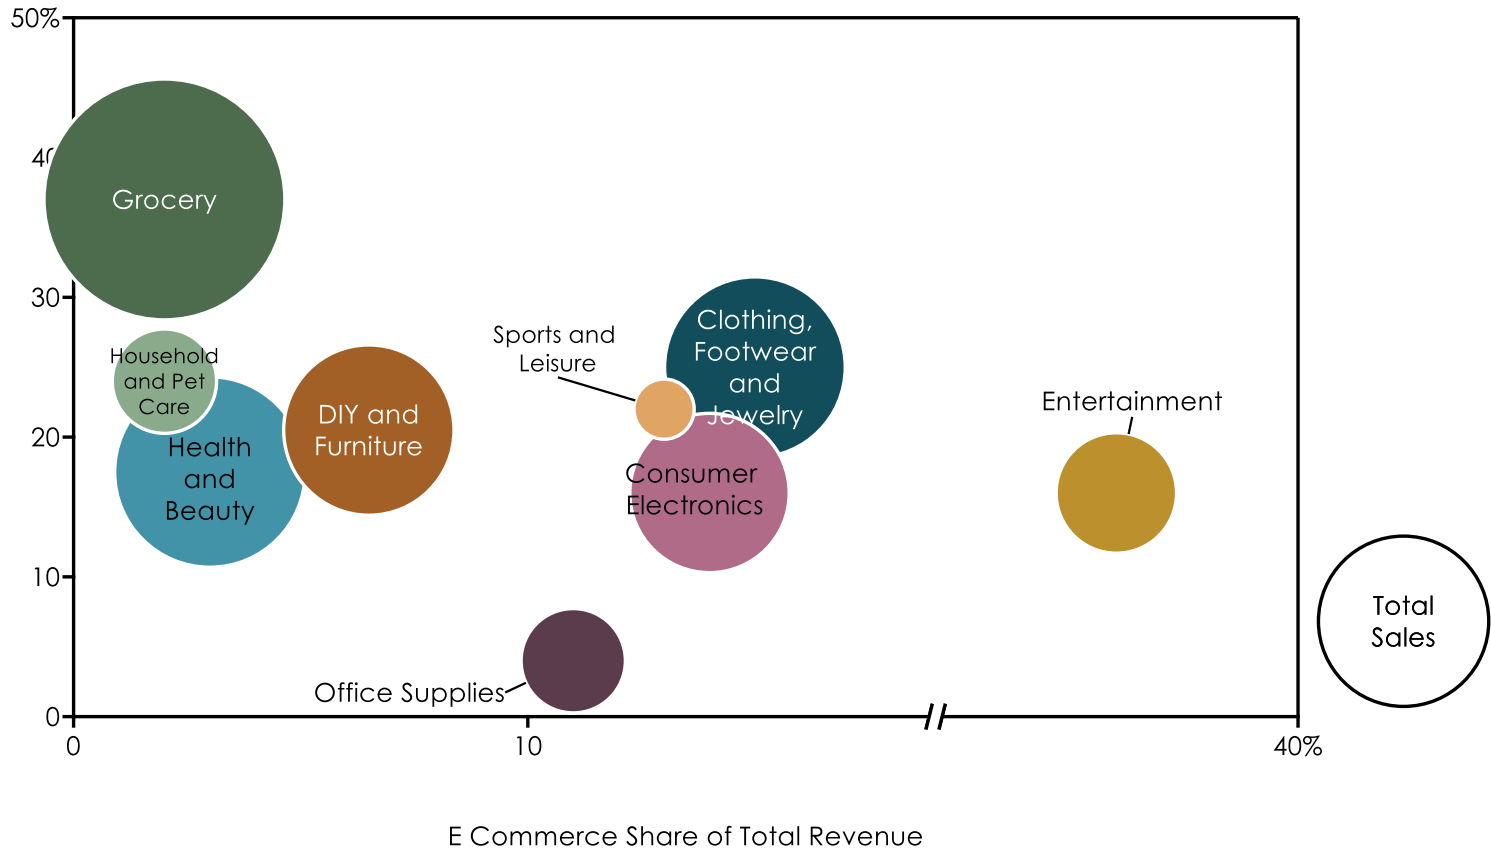

12 Month Projections			
	Level A	Level B	Level C
Green Moms shirts sold	3000	2500	2000
Eco Students shirts sold	2000	1500	500
Price per Shirt	28	32	37
Full Production Cost per Shirt	18	20	22
Loan Required (Equip. / Mkt.)	\$43,000	\$40,000	\$38,000
Profit per Shirt			
Total Shirts Sold			
Total Revenue			
Total Profit (Tot. Rev - Loan)			

4

Find the slide storyline and connect it to the case.

Ave. E Commerce Growth

4

Find the slide storyline and connect it to the case.

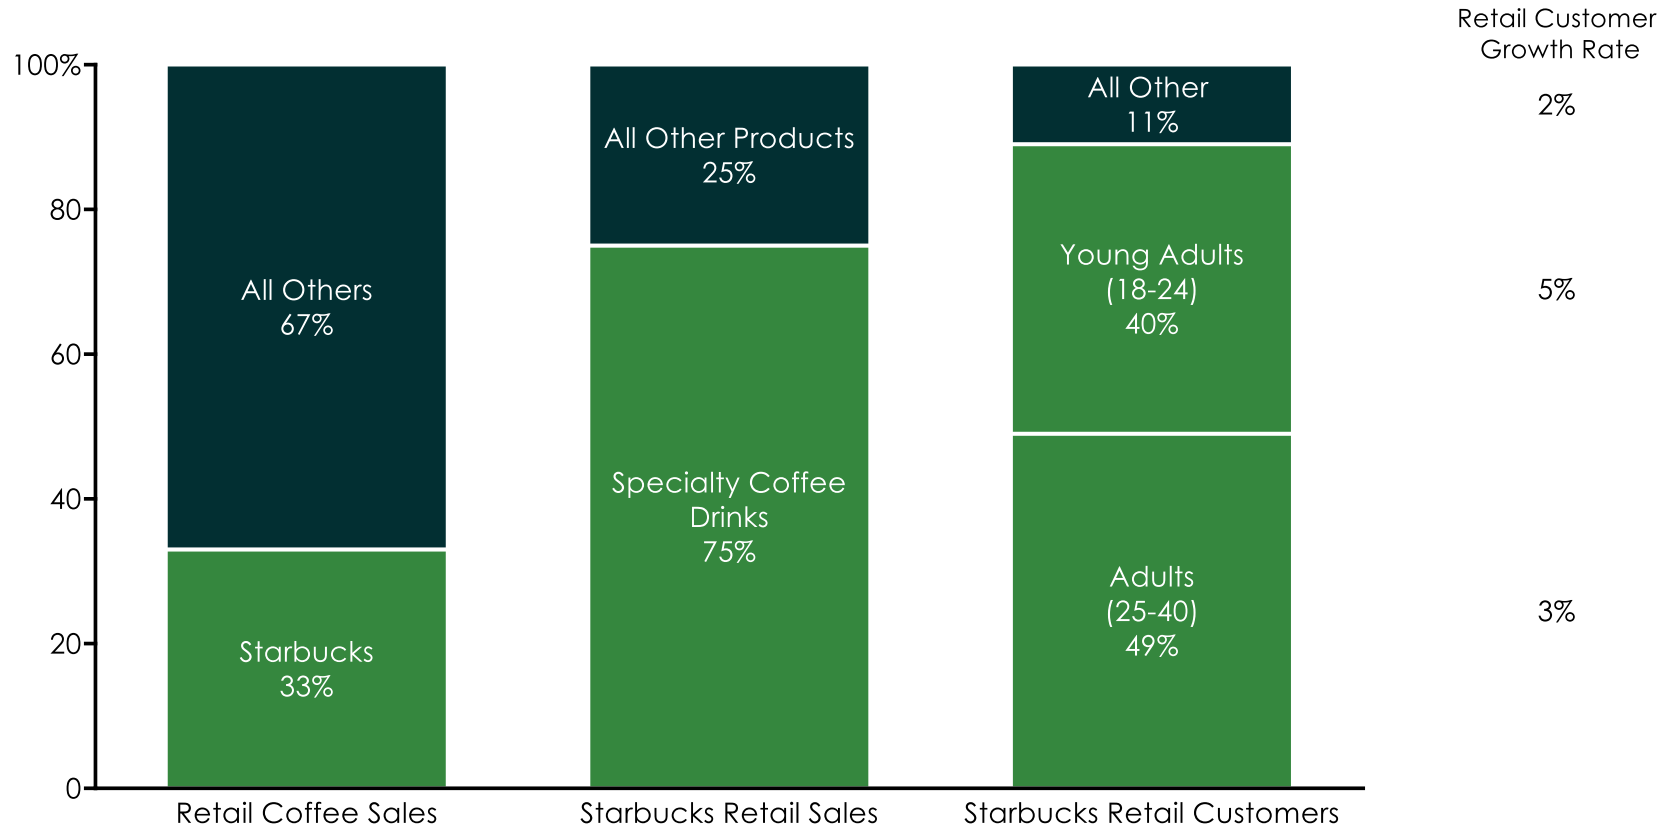

Nike Brand Revenue Details 12 months ending 5/31/2021

4

Find the slide storyline and connect it to the case.

Recap

- **Structuring well with Block, Break & Ask**
 - Makes your first impression
 - Ensures you are thinking
 - Sets up your data search
 - Action > work on breaking down everyday objects
- **Data analysis requires multiple skills**
 - Data anticipation to accelerate your thinking
 - Estimating and number manipulation
 - Data story telling
 - Slide interpretation
 - Action > define the top three pieces of data for every case

Summer Camp

We'll learn so much together!

How to handle crazy "cow" questions

When to use a hypothesis and how to make it sound sensible

How to ensure you start your case confidently every time

When it might be appropriate to use a standard framework

BLOCK

When to skip a MECE break approach to ensure discussion

BREAK

BREAK

How to make sure your blocks are MECE

ASK or STATE

ASK or STATE

How to show you are data oriented but not directionless

How to create a structure that improves your recommendation

How to prioritize your data and speed up your analysis

What past campers are saying:

“Practicing with folks from other schools really helped me see different styles.” (Tepper MBA, McKinsey offer)

“Summer Camp was instrumental in getting me here.” (Stern, MBA, LEK offer)

**“Thanks for pushing me so hard”
(McCombs undergrad, McKinsey offer)**

“I was able to power through their exhibits and extreme data . . .” (Duke MBA, McKinsey final round, ZS offer)

**“Thanks for setting such a strong foundation.”
(Amherst undergrad, Bain final round, Oliver Wyman offer)**

Crack the Case Summer Camp 2023!

- Be “offer ready” by August.
- **7 weeks / 7 topics.** Presented 2 different times each week. Recordings available.
- **Bonus:** Interview LOGIC workshop and 12-month subscription included.

- Summer Camps typically have 100+ campers from all over the world!
- World class trainers: David (ex-Bain) or Deborah Resnick (ex-McKinsey).
- Learn/See/Do. Each week there’s an assignment and 1-2 new cases.
- Work with your assigned team partners or others.
- Four Case Arenas with Q&A.
- Focus is on building consistent skills that lead to offers.

- **SAVE THE DATE: Camp begins Saturday, June 4th.**
- **Registration opens May 21st.**
